## Two rounds of clean-up drive by INCOIS at Andamans

The Indian National Centre for Ocean Information Services (INCOIS), Hyderabad, is organising two major clean-up drives to raise awareness about ocean pollution and the need to protect marine environment in commemoration of the International Coastal Clean-up Day on September 20. The first drive will take place at Havelock Island (Swaraj Dweep) on September 17 where scientists will team up with local volunteers to clear plastic and other waste from the seabed. A second coastal clean-up programme is scheduled in Port Blair on September 20, in collaboration with the Pondichery University to clean beaches and shoreline, said a press release.

## Clean-up Drives at the Andaman Islands

(Capital Information)

**Hyderabad, Sep 16 :** The Indian National Centre for Ocean Information Services (INCOIS), Hyderabad, is organising two major clean-up drives to celebrate International Coastal Clean-up Day on 20 September 2025. The events are planned to raise awareness about ocean pollution and the need to protect our marine environment.

The first clean-up drive will take place on 17 September 2025 at Havelock Island (Swaraj Dweep). Here, scientists from INCOIS will team up with local volunteers to clear plastic and other waste from the seabed. This effort is crucial for protecting marine life and local ecosystems.

In addition, a second coastal clean-up program is scheduled for 20 September 2025 in Port Blair in collaboration with Pandichery University. This event will focus on cleaning the

beaches and shoreline, with participation from INCOIS staff, local organizations, and volunteers.

These initiatives aim to educate the public about the importance of keeping our oceans and coasts clean. They also highlight everyone's role in reducing pollution. INCOIS urges the community to join these efforts by being mindful of their waste and reducing

plastic use.
