The Director
INCOIS,
Hyderabad.

Dear Sir,

Greetings from Pondicherry Multipurpose Social Service Society!

We thank you for the support that you have been giving us for the past three months.

The wave height and the wind speed information provided by INCOIS are really helpful to the fishermen community.

Your information is broadcast through All India Radio thrice a day, which covers the population of more than 50 lakhs listeners. The feedback from the people is good. The information is also announced through PA systems in 20 villages and displayed on the display board.

We are very happy to hear that you have decided to provide us digital electronic boards. We are planning to fix the digital electronic board at Cuddalore OT [harbour] where the visibility and security is available.

Thanking you,

With regards,

Fr. R. Ratchagar
Executive Director.
